## EXPERIENCE

### Software Engineer

#### OpenText

Jan 2024 – Present

Bangalore, India

- Engaged in the progressive advancement of features within OpenText's Enterprise Content Manager Project, contributing to both frontend and backend development initiatives.

### Software Engineer 2

#### Epsilon - A Publicis Groupe Company

April 2023 – Jan 2024

Bangalore, India

- Engineered and deployed a robust, scalable web application by synergizing frontend and backend technologies, leveraging Angular and JavaScript for dynamic user interfaces, coupled with Python, FastAPI, and Postgres for efficient backend operations, ensuring seamless performance and scalability.

### Software Engineer 1

#### Epsilon - A Publicis Groupe Company

August 2021 – March 2023

Bangalore, India

- Developed highly scalable web applications, seamlessly blending frontend and backend technologies. Utilizing HTML, CSS, and JavaScript, I designed captivating user interfaces, while leveraging Flask and Postgres for robust backend operations, ensuring optimal performance and scalability.

### Software Engineer Intern

#### Epsilon - A Publicis Groupe Company

January 2021 – July 2021

Bangalore, India

- Embarked on the development of an innovative social media links extractor, designed to autonomously scan and extract social media links from a variety of client websites. This pivotal tool ensures the continuous upkeep of the database with the latest information. Employing Python, MySQL, and AWS S3 as the primary technologies, I orchestrated the seamless integration of these components to deliver a robust and efficient solution.

### Software Engineer Intern

#### KLA Tencor

MAY 2020 – June 2020

Chennai, India

- Pioneered the creation of DUPLICA, a groundbreaking Visual Studio extension aimed at streamlining the process of identifying and managing duplicated code within large-scale codebases. By harnessing the power of C, SQLite, and Visual Studio.

## EDUCATION

### Masters of Computer Application

#### NIT Karnataka, Surathkal

July 2018 – May 2021

### Bachelor of science

#### University of Delhi, India

July 2014 – May 2017

### Intermediate

#### Saraswati Vidya Mandir Inter College Bisauli, India

July 2011 – May 2013

## SKILLS

### Front End Technologies:

HTML

CSS

JavaScript

Angular

### Back End Technologies:

Python

Flask

FASTAPI

Java

### Database

PostgreSQL

SQL

Elastic Search

### Others:

Docker

Kubernetes

Airflow

## INTEREST

- Algorithms
- System design
- Full stack web development
- Software Engineering
- Automation
